USPA NEWS - There is no light in a room where there is no sun and there is no sun if you're not here with me.. From “¦every window unfurls my heart the heart that you have won. Into me you've poured the light, the light that you found by the side of the road. It's time to say goodbye.
A short movie called a time to say goodbye is coming out soon, but its add is playing mind games with the people who see it for the first time as it is not giving anything away.

Why would a trailer screening be playing with the minds of many. It turns out the real issue is the truth in advertising. The way to catch audiences imagination is by giving half of the truth.
David Marcius spends a lot of time, visiting places, and saying goodbye to something,
You can only wonder what is going trough his mind and what he's thinking and what will take place in the end.

The increasingly rare term "short subject" means approximately the same thing. It is an industry term which carries more of an assumption that the film is shown as part of a presentation along with a feature film. Short films are often screened at local, national, or international film festivals and made by independent filmmakers for non profit, either with a low budget or no budget at all. They are usually funded by film grants, non profit organizations, sponsor, or personal funds. Short films are generally used by filmmakers to gain experience or prove their talent in order to gain funding for future films from private investors, entertainment companies, or film studios.
